LUSANDA NDLOVU

Software Developer

South African Citizen | lusandandlovu0500@gmail.com | 076 262 2198 | LinkedIn: lusandan | GitHub: lusandadotnet

PROFILE

Software development student and Microsoft Certified Backend Developer graduating in November 2026. Experienced in building containerized, event-driven applications and APIs using C#/.NET and Azure.

PROJECTS

Axiom Ledger - Financial Ledger & Settlement System

Gqeberha, EC | Nov 2025 – Feb 2026

- Built a multi-service financial platform in .NET 8, separating transactional writes from reporting workloads to keep the write path responsive under concurrent activity.
- Provisioned Azure infrastructure with Bicep and automated deployments with Azure CLI and Azure Container Registry (ACR) Tasks.
- Implemented a YARP reverse-proxy API gateway with custom rate-limiting policies and integrated MassTransit + RabbitMQ using the Outbox Pattern for reliable asynchronous messaging.
- Built a CQRS-based read layer with Redis caching and exposed low-latency data to a React monitoring dashboard.

Tuor - Machine-to-SAP Integration Platform

Gqeberha, EC | Jun 2026 – Present

- Built a containerized .NET system that ingests concurrent MQTT data streams and processes mechanical load readings in real time.
- Implemented an IIR filter in C# to smooth noisy sensor data and a stateful ledger using composite-key hashing to suppress duplicate API requests during a 24-hour cooldown window.
- Integrated the platform with SAP S/4HANA through OData and added SQLite local buffering plus Redis failover storage to preserve data during connectivity interruptions.
- Built a local web interface with Nginx and WebSockets for real-time telemetry and automated WhatsApp escalation through the Twilio API.

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, SQL
Backend: ASP.NET Core Web API, .NET 8/10, .NET Worker, FastAPI, REST, gRPC
Data: SQL Server, PostgreSQL, Entity Framework Core, Dapper, Marten
Messaging & Distributed Systems: RabbitMQ, MassTransit, Azure Service Bus, Redis, CQRS, Outbox Pattern
Cloud & DevOps: Microsoft Azure, Docker, Azure Bicep, Azure CLI, Azure DevOps, GitHub Actions, Azure Container Registry
Testing & Tools: xUnit, Pytest, Git, Bash, WSL/Ubuntu
Additional: SAP S/4HANA, OData, IDoc, SAP Integration Suite, Groovy, MQTT

CERTIFICATIONS

- SAP Certified: Integration Developer — SAP Integration Suite (Aug 2026)
- SAP Certified: Backend Developer — SAP Cloud Application Programming Model (Aug 2026)
- Microsoft Certified: Azure Fundamentals (AZ-900) (May 2026)
- Professional Certificate: Microsoft Backend Developer — Coursera (May 2026)

EDUCATION

Nelson Mandela University

Diploma in Information Technology (NQF Level 6), Software Development | Expected Nov 2026

Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Web Development, Data Analysis, Database Design & Development.

LEADERSHIP & ACTIVITIES

Madibaz Cricket Club — Player Coach

Feb 2024 – Present | Manage a team of 15+ university cricketers, coordinating schedules and resolving team conflicts.

The IRONMAN Group — Aid Station Volunteer

Apr 2026 | Supported athletes and helped operate a water station during the IRONMAN South Africa event in Gqeberha.
